radioimmunoassay (RIA) 403
GAD antibodies 403
rat intestine 159
recombinant protein 524
reducing sugars 347
effect on protein/DNA interaction 347
rejection A5
islets of Langerhans A5
kidney A5
vascularized pancreas A5
remnant-like particles 398
oxidation 398
IDDM 398
ischemic heart disease 398
NIDDM 398
renal failure 120
acute 120
diuretic phase 120
renin 580
thyroid disease 580
repression 294
reproducibility 106
insulin tolerance test 106
residronate 120
residual beta-cell function 510
glutamic acid decarboxylase antibodies 510
resting metabolic rate 458
effect of high altitude trekking 458
RET proto-oncogene 135
retina 427
rat 427
gamma-aminobutyric acid 427
thyrotropin-releasing hormone 427
retinopathy 247
diabetic 111
endothelin-1247
pre-proliferative 247
reverse 3,3',5'-triiodothyronine (rT_3) 252, 496
hyperglycemic effect of heat stress 252
lipemic effect of heat stress 252
risedronate 145

S

saline infusion 33
effect on atrial natriuretic hormone secretion 33
effect on atrial pressure 33
sarcoidosis 120
secretin 297
seizures 577
pentylenetetrazole-induced 577
T_3 deficiency 577
selectins 614
E-selectin 614, 636
soluble 627
L-selectin 614
P-selectin 614, 627, 631, 636
serine 556
serotonin metabolism 80
postmenopausal women 80
effect of estradiol 80
effect of norethisterone acetate 80
serotonin metabolite 80
sex differences 111
tumor necrosis factor α in NIDDM 111
sex hormones 115
pancreatic adenocarcinoma 115
sexual dimorphism 646
mouse glycine N-methyltransferase 646
short ACTH test 106
signal transduction 572
skeletal muscle 593
microdialysis 344

skeleton 120
malignancy 120
sleep 422
growth hormone secretion 422
growth hormone-releasing hormone secretion 422
smooth muscle cell 440
effect of pioglitazone 444
sodium 153
soluble factors 294
B cell maturation 294
somatostatins 297
somatostatin-14 184, 297
effect on immunoreactive growth hormone-releasing hormone 184
somatostatin-28 297
spectrofluorometry 38
cytosolic Ca^{2+} concentration 38
speed of sound 76
stable isotope techniques 334, 340
gluconeogenesis 334
liver metabolism 340
steroids 30, 86, 190
C_{19}-steroids 30
fetal production 30
production 30, 86
interrenal glands 86
enhancement by pituitary adenylate cyclase-activating peptide 86
secretion 190
effect of catecholamines 190
steroidogenesis 501
streptozotocin 101, 454
stress 88, 252
subcutaneous adipose tissue A8
interstitial fluid sampling A8
substrate utilization 436
effect of etomoxir 436
sulfonylureas 203, 411
superoxide anions 622
superoxide dismutase 532
supraoptic nuclei 477
surgery 66
hormonal effects of enflurane anesthesia 66
survival rates 1
kidney transplantation 1
diabetic patients 1
pancreas transplantation 1
diabetic patients 1
sympathoadrenal activity, 25
during exercise 25
diabetes 25
synergism 556
amino acid + glucose 556
dairy cows 556

T

temocapril 153
testosterone 115, 584
pancreatic adenocarcinoma 115
tetraiodothyronine (T_4) 225, 580
thiazide diuretics 120
thiazolidinedione derivatives 203
mechanism of action 203
thiobarbituric acid reactive substances 398
threonine 556
thrifty genes 323
thrombin 631
thrombogenic transformation 631
thrombosis 631
thrombospondin 631
thromboxane biosynthesis 237
thymus A5
site for islet transplantation A5
thyroid disease 351, 580
aldosterone plasma level 580
renin plasma level 580
thyroid gland 351
thyroid hormones 176, 225, 351, 496, 577, 580
effect on heart rate 225
effect on rat papillary muscle fibers 225
thyroid tumor 351
thyrotoxicosis 580
thyrotropin 66, 164, 358
effect of enflurane anesthesia 66
lipolytic effects 164
thyrotropin-releasing hormone 427
rat retina 427
thyroxine (T_4) 16, 496, 532, 556, 577, 580
effect on glucose transport 16
effect on GLUT 416
effect on insulin receptors 16
effect on rat adipocytes 16
thyroxine 5'-deiodinase activity 496
tiludronate 120, 145
time-resolved fluoroimmunoassay 237
tissue distribution 56
glucagon-like peptide-1 receptor gene 56
glucagon receptor gene 56
total body water 458
effect of high altitude trekking 458
total plasma antioxidant status 355
NIDDM 355
total plasma oxidant status 355
IDDM 355
trandolapril 465
transcription factors 265
NeuroD 265
Nkx6.1 265
pancreatic β-cell phenotype 265
Pax6 265
PDX-1 265
transforming growth factor α 278, 294, 544
transforming growth factor β 278
transgenic mice 308, 311
transglutaminase 535
trekking 458
triglycerides 111, 504
effect of estradiol 504
castrated rats 504
triiodothyronine 225, 496, 577
triiodothyronine deficiency 577
pentylenetetrazole-induced seizures 577
triiodothyroxine (T_3) 151, 532, 580
troglitazone 203
chemistry 203
hepatic actions 203
metabolism 203
NIDDM 203
peripheral action 203
toxicity 203
tuberculosis 501
tumors 120
effect on skeleton 120
tumor growth factors 120
bone-derived 120
tumor metastasis 120
bones 120
tumor necrosis factors 120, 138
tumor necrosis factor α 111, 168, 379, 469, 491
NIDDM 111
sex differences 111
tumor necrosis factor-β 469
type-1 iodothyronine 5'-deiodinase activity 532
effect of lead 532
type-I iodothyronine 5'-monodeiodinase 151

U

uric acid 355, 520
plasma levels 355
IDDM 355
renal metabolism 520
NIDDM 355
uterine fibromyomatosis 472
uterine fluid 462
lactate dehydrogenase isozyme pattern 462

V

valine 556
vanadate compounds 101
insulin-like action 101
vanadium 101
vascular cell adhesion molecule-1 (VCAM-1) 614, 627, 636
vascular function 643
vascular function 643
diabetic retinopathy 643
vascular integrins 643
vasoactive intestinal peptide 409
vasopressin 297, 477
verapamil 38
vertebral fracture 76
risk analysis 76
broadband ultrasound attenuation 76
speed of sound 76
very low density lipoprotein receptor 524
vitamins
vitamin A 120
intoxication 120
vitamin C 63
hypercholesterolemia 63
vitamin D 120
intoxication 120
receptor 231
vitamin E 63
hypercholesterolemia 63
vitronectin receptors 643
voglibose 407

effect on glycemic excursion in NIDDM 407
von Willebrand factor A16

W

WHO-MONICA study on obesity 155
wound healing 43, 383

X

xanthine oxidase 351
xenotransplantation A12
microbial contaminations A12

Y

YH-529 145

Z

zoledronate 145
